

## Annual Performance Earnings Calculator

The purpose of this form is for you to record your performing arts income from multiple sources so you can easily calculate your Annual Performance Earnings per year. Please use one form for **each year**. If you need additional space for any one year, please continue on a separate form.

Remember, to qualify for financial assistance from EAG, you must have made at least \$5,000 per year in 3 of the last 5 years through your work as a performing artist. (We will also accept \$5,000 per year in 5 of the last 10 years, or \$5,000 per year in 10 of the last 20 years. If you are retired or disabled, we will consider the last 5 years of your active career.)

Begin by entering the **Year**. Then list each **Employer**, your **Job** for that employer, and the **Total Income Earned** from that employer for that specific year in the table below. Repeat this for each employer. At the bottom of the table, enter the **Annual Total Performance Income** by adding together all earned income for that particular year.

Earnings for **Year**: \_\_\_\_\_

Employer:	Job:	Total Income Earned:
<b>Annual Performance Income:</b>		

**Please note:** W-2's, 1099s, paycheck stubs, and/or signed contracts submitted to EAG ([karen@actorsguild.org](mailto:karen@actorsguild.org)) must match what is listed in the table above. They are required as part of your earnings documentation to meet eligibility.
